DETAILED ACTION

1. The amendment filed on 4/14/06 has been fully considered and made of record.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 16-24 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakatani (5,888,627). This rejection is set forth from prior Action, paragraph 7, dated 1/24/06.

Response to Arguments

4. Applicant's arguments filed on 4/14/06 have been fully considered but they are not persuasive.

Amendment to the claim languages appears to overcome the rejections under 112 2nd paragraphs.

Applicant's argument under the heading "Remarks", page 6, paragraph 3 that the references fail to teach the "forming a dielectric substrate of a prepreg by impregnating a glass cloth with thermosetting epoxy mixed with fine particle" as required by claim 16. The examiner disagrees applicants are referring to the discussion at col. 2, and col. 8 of the reference which discloses the substantially formed process above. Therefore, the broadly claimed "impregnating a glass cloth with thermosetting epoxy mixed with fine particle" as to form a dielectric substrate is met by Nakatani.

Furthermore, regarding “the melting viscosity and the controlling resin flow by heat and pressure associated therefrom”(see “remarks” page 6, bottom section of paragraph 3). It is noted the above features are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

For all reasons above, Applicants’ arguments are not persuasive and are not clearly point out the patentable novelty which they thinks the claims present in view of the state of the art disclosed by the references cited or the rejections made. Therefore, the prior art rejection is maintained for same reasons of the record.

This application contains claims 25-26 drawn to nonelected invention. A complete reply to the final rejection must include cancellation of nonelected claims 25-26 or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Interviews After Final

5. Applicants note that an interview after a final rejection will not be granted unless the intended purpose and content of the interview in presented briefly, in writing (the agenda of the interview must be in writing). Such an interview may be granted if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations which would require more than nominal reconsideration or new search will be denied. See MPEP 714.13 and 713.09.

Conclusion

6. It is noted that any amendment made to the disclosure and the claims. Applicant requires to point out the support provide numeral references to the claimed limitations as well as support in the disclosure (i.e., page and line numbers and reference number associated with from the drawings) for better clarity (See 37CFR 1.111 and section 2163.06 of the MPEP).

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
